

Transmission Services

Standard Performance Metrics

Reporting period April 1, 2012 - June 30, 2012

The following metrics are reported in compliance with the Standard Performance Metrics required by Title 18 CFR, Part 37.6(h).

Performance Metrics

BPA Transmission Services did not execute any Study Agreements and issued no System Impact (SIS) or System Facility Study (SFS) reports during the second quarter of 2012. During this time, BPA did not have any staff processing SIS or SFS.

BPA has conducted three Network Open Seasons (NOS) in 2008, 2009 and 2010, processing requests for long-term transmission service. As a result, BPA has identified several major transmission expansion projects, which are currently in various states of construction or review.

Currently, BPA is reviewing the results of the past NOS efforts and looking to improve the process in the future. In April 2011, BPA announced its decision to delay the start of the next NOS. BPA has not yet determined when it will restart NOS, but is actively working to further develop the NOS model for the upcoming NOS cycle.

For more information about Network Open Season, refer to the Network Open Season webpage at: http://transmission.bpa.gov/customer_forums/nos_home/.
