Powerex has the following comments on the Resale of Transmission Service Business Practice, Version 7:

Section E.8 of the business practice currently says:

For a short-term Resale, the Assignee must select the same POR and POD as the Reseller's Transmission Resale Offering from the drop-down menu of the POR and POD fields. For a long-term Resale Offering, the Assignee must call the ~~BPA Reservation Desk~~ the Seller to get the same Source and Sink as the Reseller's Transmission Resale Offering and enter that in the Source and Sink fields.

Powerex suggests replacing the current wording with the following:

For a short-term assignment, the Reseller must confirm the POR and POD in the drop-down menu matches the points of the reservation to be assigned. For a long-term assignment, the Reseller must also include the Source and Sink of the reservation to be assigned.

#### **Transmission Service's Response**

Thank you for your suggested language. BPA agrees that the current language should be modified and made the modification in E.8 in the final version.
