Title: Appendix C of LGIA modification relating to Environment Redispatch and other Dispatch Standing Orders

Posted: April 5, 2011

Effective: TBD

Pursuant to its authority under Article 9.3 of the LGIA, BPA will unilaterally modify Appendix C for existing LGIAs to include the following provision for Environmental Redispatch. This modification will also update all existing LGIAs that do not currently reference Dispatch Standing Order 216. This language will also be included in all future LGIAs:

Transmission Provider's Control Area requirements include compliance with operating instructions issued in accordance with Transmission Provider's dispatch standing orders, including Dispatch Standing Order 216 and orders to reduce generation in accordance with Transmission Provider's Environmental Redispatch Business Practice(s), as such, dispatch orders may be amended from time to time.
